

TeleBoard[®] System

Telescopic aluminium platform

- Stable, steplessly extendable aluminium telescopic platform with integrated transport safety device for different indoor and outdoor works
- Closed case profile for more stability and easy cleaning
- Available lengths: from ca. 3.00 m to 3.50 m (extended lengths)
- With the optional accessory a complete working platform can be created which can be moved with one grip due to safe interconnected parts
- Maximum reachable working height from 2.50 m to 3.00 m
- A wide stabilizer (accessories TeleSet) ensures an absolute safe foothold
- DEKRA/GS-approved / loadable up to 200 kg
